

HEBA FATHY MOHAMED AFIFY

FULL-STACK & MOBILE APPLICATION DEVELOPER

Cairo, Egypt | (+20) 1140010431 | hebaf3283@gmail.com | linkedin.com/in/heba-fathy-92aa37402 | github.com/hebaf3283-source

PROFESSIONAL SUMMARY

Results-driven Computer Science student and Software Developer experienced in Agile environments, microservices backend architecture, cross-platform Flutter app development, and relational database design. Proven track record at Vodafone and CIB executing production deployments, automated testing, and CI/CD workflows to deliver high-impact software solutions.

TECHNICAL SKILLS

Languages:	C++, JavaScript, TypeScript, Java, Dart, SQL, HTML5, CSS3
Frameworks & Mobile:	Express.js, Node.js, Flutter, Provider State Management, REST APIs, Microservices
DevOps & Methodologies:	Agile/Scrum, Git, GitHub Actions (CI/CD), Postman, Unit Testing, AWS Concepts
Databases & Tools:	MySQL, MariaDB, Database Normalization (3NF), VS Code, Wireshark, Cisco Packet Tracer

WORK EXPERIENCE

Java Developer Intern — Vodafone | Jun 2025 – Aug 2025

- Engineered scalable Java backend microservices in an Agile team setting, accelerating system execution response time by 15%.
- Integrated RESTful API endpoints and unit tests via Postman, maintaining 100% data consistency across service modules.
- Collaborated in weekly CI/CD code reviews and version control workflows on GitHub.

Cyber Security Intern (Outsourced) — CIB Bank | Jan 2025 – May 2025

- Conducted vulnerability assessments across 20+ internal network nodes, enforcing strict network security protocols.
- Analyzed traffic logs with Wireshark, identifying and mitigating 10+ high-priority security risks to ensure zero system downtime.

Data Entry Administrator — CIB Bank | Aug 2024 – Dec 2024

- Digitized and validated 1,500+ daily banking records maintaining 99.8% data accuracy and compliance with database standards.

KEY PROJECTS

Metro Route Planner App (Flutter, Dart, Algorithms, CI/CD)

- Developed cross-platform Flutter app with Dijkstra's algorithm, reducing route calculation time by 40% across 60+ station nodes.
- Deployed application builds to 50+ beta testers using GitHub Actions CI/CD pipelines, achieving a 4.8/5 satisfaction rating.

E-Commerce Database System (MySQL, Relational Schema, Unit Testing)

- Architected relational SQL database normalized to 3NF across 10+ tables, optimizing query response time by 25% for 1,000+ test transactions.

Online Pharmacy Ordering App (Flutter, Node.js, Express.js, REST APIs)

- Built mobile ordering solution integrated with Express.js REST APIs, decreasing checkout and order processing duration by 35% across 200+ medicine catalog items.

EDUCATION

B.Sc. in Special Computer Science — Faculty of Science, Ain Shams University | Expected Graduation: Jun 2028

- CGPA: 3.33 / 4.00 (Very Good / B+) across 60+ completed credit hours.

TRAINING & CERTIFICATIONS

- Digital Egypt Pioneers Initiative (DEPI):** Completed 120+ hours of advanced Agile software & Flutter mobile engineering[cite: 1].
- Information Technology Institute (ITI):** Completed specialized tracks in Software Testing, Data Science, and Cybersecurity[cite: 1].
- Cisco Networking Essentials:** Certified in fundamental routing, switching, and network protocol security[cite: 1].

VOLUNTEERING & LEADERSHIP

- Resala Charity Organization (Active Volunteer | Jan 2024 – Present):** Coordinated logistics for 5+ community outreach events, aiding 300+ families[cite: 1].
- Ain Shams University (Student Activity Member | Oct 2023 – May 2024):** Organized 3 academic tech workshops engaging 150+ student attendees[cite: 1].
